

What's been happening...

Greetings from the OSH Club! 🌍

Our "Around the World" theme has been in full swing, and the past two weeks have transported us to the vibrant and diverse cultures of Mexico and Italy. Let's take a quick trip down memory lane and discover what exciting activities we've been up to.

Mexico: ¡Viva la Fiesta!

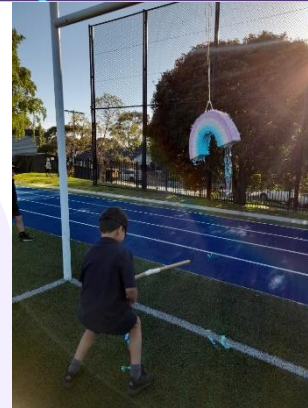

Our Mexican adventure was a fiesta to remember. We donned sombreros and played the classic "pass the sombrero" game. The flavours of Mexico came alive as we savoured delicious tacos, and, of course, no Mexican celebration is complete without a piñata! Great fun was had as we took turns trying to break it open to get to the prizes inside.

Italy: A Slice of Fun

From Mexico, we flew our imaginations to Italy. A pizzeria sprang up in our little corner of the world as we enjoyed pizza and pasta. But the Italian adventure didn't stop there. For weeks, we had been working on two magnificent volcanoes made of paper mache. Finally, it was time for them to erupt, and the excitement was palpable. Lava oozed, and cheers erupted along with our volcanoes.

Upcoming Adventures: Japan and South Africa

The adventure doesn't end with Mexico and Italy; we have more exciting destinations ahead! The next two weeks will see us delving into the captivating cultures of Japan and South Africa. Get ready for a journey into the Land of the Rising Sun, where we'll explore the art of origami, savor sushi, and learn about the rich traditions of this incredible country. After that, we'll be off to the stunning landscapes and diverse heritage of South Africa. It's a world of adventure right at our doorstep!

Looking Forward ✨

We are very excited about our Pupil Free Day activities this Monday! The theme is Mini Olympics. We will have egg and spoon, three-legged races, making medals and even making an Olympic torch. The day will be fun-filled, with a few surprises throughout the day as well.

On Tuesday 14th November in our Stay and Play program, we will be having a party to celebrate the new release of Brain Boosters Adventure category. Supporting children to crack codes, solve puzzles, and engage in captivating games and science experiments, brain boosters Brain Boosters will help children explore the wonders of the world with hands on STEM activities.

This term, we're placing a special emphasis on hands-on experiences for our young explorers. As we mentioned last newsletter, we have a leadership program starting. Kids have the opportunity to take on various roles and responsibilities within our community. The six unique roles include:

- Bag and Lost Property
- Storeroom Leader
- Room Leader
- Science Leader
- Baking Leader
- Sports Leader
- Kitchen Leader

These roles will not only empower our young students but also provide a platform for them to actively contribute to our community. It's a fantastic opportunity for kids to take charge, learn valuable skills, and make a difference. The children will meet with educators to organise and plan different activities, as well as lead others in their chosen area. As we delve deeper into the term, we're excited to inform you that our focus will be on more baking and scientific experiments. Get ready for a world of hands-on learning and fun! We can't wait to see the creativity and innovation that will emerge from our young leaders.

Warm regards,
OSH Club Team 🌍
