

## What's been happening...

### Greetings from the OSH Club! 🌍

It has been a good first two weeks back!

Welcoming the preps has been fantastic to see so many new faces join our community.

### Preps

It has been wonderful to have the preps join us in week two. We have had an increase of 15 preps which we have been delighted to join. We have been contributing our preps favourite things to do, including Lego, painting, colouring in, loom bands, and so much more.

### Calm space

We have also created a calm space that children can go to, to have a relaxing time away from everything else. This includes a tent with a light, a blanket and some cushions. The area is away from everything else, to allow for a quite time.

### Community book house

We have created a book house just outside our OSHClub room and we would like you to share with us. It is to borrow books and to swap books at your desire. Adventure your reading world, with availability of the book house every day.

### Friday Splash Day

Curriculum day was such a blast here, we had a splash day with all things water. We adventured through different water games including pass the cup overhead without spilling, sponge races, drip, drip, drop, water balloon catching and a water fight. It was good to see the children having fun with all the tricky tasks. Not only did we play with water we adventured our fairy tales with our painting of fairy tale ceramics. To end the day indulging in some cooking with some brownies.

### REMINDERS:

Non-notified absences will incur a fee.

## Looking Forward 🌟

We are looking forward to celebrating world harmony day, where we can adventure multiple cultures and activities that reflect different cultures. There is also tell a fairy tale day which we have some exciting activities for children to embrace their own fairy tales.

We are also excited to bring in more of the adventure pack activities. Students will get the chance to choose their own adventure, which will support children solve puzzles, engage in captivating games, science experiments, cooking activities, and group games.

This term, we have returned with our leaders. Allowing children to be hands on and explore an opportunity of leadership. Kids can take on various roles and responsibilities within our community. The seven unique roles include:

- Bag and Lost Property Leader
- Storeroom Leader
- Room Leader
- Science Leader
- Baking Leader
- Sports Leader
- Kitchen Leader

These roles will empower our young students to take a risk and provide a platform for them to actively contribute to our community. This is an opportunity for children to take charge, learn valuable skills, and make a difference. The children will meet with educators to organise and plan different activities, as well as lead others in their chosen area. Get ready for a world of hands-on learning and fun! We can't wait to see the creativity and innovation that will emerge from our young leaders.

Warm regards,  
OSH Club Team 🌍
