

What's been happening...

Greetings from the OSH Club! 🌍

The last two weeks have been amazing to see our numbers rise and children having so much fun with some of our new areas implemented.

Activities

We have been up to so much at OSHClub. Below are some of our favourites:

- *Baked cookies and banana bread which was child-led by our kitchen leaders.
- *Did some body-murals, some were whole-person, and some were smaller body murals.
- *Had some intense chess competitions, along with others teaching the younger children how to play chess.
- *Lots of adventures on the playgrounds with an exhilarating game of 'among us'!

Wishing tree

We have put together a wishing tree display, where children can write something they wish for either a friend, a family member, or someone they care for, or to write down something they are grateful for themselves. This is something that the children and educators can look back at and for some of these we wish to help incorporate into our program if they apply.

Community book house

Don't forget about our book house just outside our OSHClub room. It is to borrow and swap books at your leisure. Adventure the reading world, with the availability of the book house every day.

Chinese New Year

Visiting around the world to China we celebrated the Year of the dragon, with some dragon craft and some fan making.

Valentines day

Children indulged in the love and crafted together Valentine's Day cards for their loved ones, as well as some heart-making with gems and sequins.

Fairytale Day

Children dove straight into their fairytale paintings with different designs of unicorns, rainbows, castles, butterflies, and fairies.

REMINDERS:

Non-notified absences
will incur a fee.

Looking Forward 🌱

We are looking forward to helping the community with clean up Australia Day with the students. We are also looking forward to our next Friday funday of Dr Suess, with some activities around his famous books.

We can't wait to see our sustainable garden bed to keep growing and find what vegetables grow.

Sustainability

This term, we have been focusing on sustainability!

We have been making sure we are using the correct bins for recycling and rubbish. We have added a new additions to our service, with our new garden bed. Children were completely engaged and inspired by how we built the garden with heaps of engagement and wisdom from the children. It was thrilling to see how much knowledge children have about their well-being and the environment to grow.

Feedback

We would love to hear from you with your feedback! Please reach out to the team by coming to visit us, or giving us a call!

Warm regards,
OSH Club Team 🌍
